## EXPERIENCE

### UX Designer | Amazon

March 2022 - Present, Seattle WA, US

Design end-to-end experiences for Amazon's enterprise device management tools, simplifying data-heavy admin workflows through scalable interaction patterns, automated deployment flows, and Amazon AWS design-system-driven UI customization to improve admin efficiency and productivity at scale.

### UX Designer - contract | Microsoft

May 2020 - March 2022, Seattle WA

Designed for third-party app integrations within Microsoft Teams. Created cohesive cross-surface experiences across bots, message extensions, adaptive cards, and meeting extensibility. Established interaction patterns and user flows aligned with Teams desktop environments to ensure consistency, usability, and platform compliance.

### UX/UI Designer | Parent Lab Inc

Aug 2019 - Feb 2020, Seattle WA

Designed and launched the Parentlab website which provides audio courses of parenting skills. Work closely with the engineers and the product manager from product ideation, research, design to the implementation.

### UX/UI Designer | Easyrent Corporation

June 2018 - May 2019, New York City

Designed a mobile solution that makes the experience of house renting easier for international students in NYC. Collaborated with the marketing team, product managers and software engineers to ideate and iterate design.

## EDUCATION

### New York University

Sep 2016 - May 2018, New York City

Master of Arts in Digital Media

### Northeastern University at Qinhuangdao

Sep 2012 - June 2016, China

Bachelor of Engineering in E-Commerce
